

200N Pneumatic Bollard Grips

Material – Aluminum Body, Steel jaws

Max Tensile Rating: 200N or about 50 lbs. at 7 bar or about 100psi

Recommended specimen diameter: 1mm

Temperature Range: -10 to +80C – custom available

Weight: 102 grams

Coupling: Female 8mm clevis coupling with 3mm pin hole

Jaw Options: Smooth, Serrated, Rubber or Diamond Coated

The 200N Pneumatic Bollard Grip is designed for low force tensile testing of cords, wires and string.
