

180 Degree Peel Test Fixture

Tensile Rating: 10kN or 2,250 lbs.

Test Area Length x Width: 300x50mm (other sizes available)

Surface Options: Glass or Steel

Adapter Coupling: 5/8" with a 5/16" Locking Pin

The 180 degree peel fixture is connected to the top adapter. The tape is looped 180 degrees downwards and secured in the bottom fixture which is usually a vise grip with rubber inserts. The fixture is then pulled up, usually at a rate of 300mm/min.
